Deca 300 Secondary course refers to 2 years Intermediate (MPC) from the State Intermediate Board of Education with parallel free coaching for all defence jobs. VDA is a job-getting device. It is a 21-year-old institute that utilities about 1000 students hours each day to achieve. One goal, that is, Business! From zero to 8456 Job holders in just 21 years say something about the institute, about the institute, the volume. Your friends and parents believe that EAMCET is the only career and also some parents force their children to take ITI &Polytechnic as a career for job security in the future. Because they have plenty of time to fear for your career in the future. But there's no time to spend on books on professional guidance. Buy kids your parents are hard pressed into work deeds, earn their bread and butter and money for your education. Sometimes they go on loans even for your education. All at what cost? At the cost of their blood, sweat and sleepless nights. But if your education doesn't get EAMCET or your diplomas, they won't get the job. What's the fate of your parents? Put your shoes on and think about it sometime. The National Defense Academy is rerouting here. For other purposes, see the National Defence Academy (parsing). The NDA is located in Khadakwasla, Pune, Maharashtra. It's the first tri-service academy in the world. NDA alumni include 3 Param Vir Chakra recipients and 12 Ashoka Chakra recipients. The NDA has also produced 27 service bosses to date. The current chiefs of staff of the Army, Navy and Air Force are all NDA alumni from the same course. [2] The 137th Course passed out on 30 November 2019 and consisted of 188 ARMY cadets, 38 Naval cadets, 37 AIR FORCE cadets and 20 cadets from friendly foreign countries. [4] History Seal of 1999 dedicated to the 50th anniversary of the National Defence Academy, which housed his Sudan Bloc At the end of World War II Field Marshal Claude Auchinleck, then commander-in-chief of the Indian Army, drawing on the experiences of the army during the war, led a committee around the world and submitted a report to the government of India in December 1946. The committee recommended the establishment of a Military Academy of Joint Services, with training modelled on the United States Military Academy at West Point. [5] Following India's independence in August 1947, the Board of Chiefs of Staff immediately implemented the recommendations of the Auchinleck Report. In late 1947, the committee adopted a new committee on the 1950s. She also decided to establish a temporary training academy, known as the Joint Services Wing (JSW), which was commissioned on January 1, 1949 at the Armed Forces Academy (now known as the Indian Military Academy) in Dehradun. [6] Initially, after two years of training at JSW, army cadets went to the military wing of the Armed Forces Academy for two years of further training before commissioning, while Navy and Air Force cadets were sent to Britannia Royal Naval College Dartmouth and Royal Air Force College Cranwell in the United Kingdom for further training. In 1941, Lord Linlithgow, then an Indian viceroy received a £100,000 gift from the grateful Sudanese government towards the construction of a war memorial in recognition of the sacrifices of Indian troops in the liberation of Sudan in the East African campaign during World War II. After the split, India's share was £70,000 (Rs 14 Lakh at the time; the remaining £30,000 went to Pakistan). [7] The Indian Army decided to use these funds to partially cover the cost of building the NDA. [7] The foundation stone for the academy was laid by then Indian Prime Minister Jawaharlal Nehru on October 6th [7] Construction began in October 1949. The revised estimated cost for the entire project was Rs 6.45 crores The National Defence Academy was officially commissioned on 7th [10th] 10th JSW program transferred from Clement Town, Dehradun to NDA Khadakwasla. Campus Aerial view of the Sudanese block of the Academy Campus NDA is located about 17 km southwest of the city of Pune, north west of Lake Khadakwasla with the Sinhagad Fortress providing a panoramic backdrop. it covers 7.015 hectares (28.39 km2) of 8,022 hectares (32.46 km2)[12] donated by the government of the former state of Bombay. While many states offered land for a permanent place for the Academy, Bombay received the honor, donating the most land, including a lake and adjacent hilly terrain. [13] The site was also chosen because of its proximity to the Arabian Sea and other military facilities, an operational airbase near Lohegaon, as well as the salubrious climate. The existence of the old combined forces training centre and the unused lake landing ship HMS Angostura on the north shore of Lake Khadakwasla, which was used to train soldiers for amphibious landings, gave further priority to the choice of location. [5] A view from Sinhagad Fort, the backdrop for the NDA Chhatrapati Shivaji Memorial at the National Defence Academy[14] The Marath Warrior King of the 17th [15th] [16] NDA Administrative Headquarters was called the Sudanese Bloc, honoring the sacrifices of Indian soldiers in a Sudanese theatre during the East African campaign. It was inaugurated by sudan's then ambassador to India, Rahmatullah Abdulla, on May 30, 1959 [7] The building is a 3-story basalt and granite structure built with Jodhpur red sandstone. Its architecture has an exterior design consisting of a mixture of arches, columns and verandas, on top of the dome. The anteroom has white Italian marble floors and panelling on the interior walls. [7] The Habibullah Museum is also present on campus. The NDA has excellent cadet training infrastructure and a wide range of amenities such as spacious and well-maintained classrooms, well-equipped laboratories, two Olympic swimming pools, a gymnasium, 32 football fields, 2 polo courts, a cricket stadium and a range of squash and tennis courts. [17] The academic year is divided into two terms, viz. spring (From January to May) and autumn (from July to December). The cadet must receive training for a total of six terms before graduating from the NDA. Main article of the Directorate: Commander of the National Defence Academy The commander of the National Defence Academy is the head and overall in charge of the academy. The commander is a three-star officer from three services in rotation. [18] Major General Thakur Mahadeo Singh, DSO was JSW's first commander in the IMA. Major General E Habibullah was the last head of JSW and the first NDA commander in Pune. Lieutenant General Asit Mistry is the current commander. Lieutenant General Jatinder The 28th commander, was indicted in a recruitment scandal and removed from office for corruption. [19] [18] Candidates for the NDA enrolment process shall be selected through a written examination conducted by the UPSC each year, followed by extensive discussions by the Services Select Committee covering general fitness, psychological testing, team skills, as well as physical and social skills, together with medical tests. Incoming classes are received twice a year for the semester starting in July and January. About 4,50,000 applicants take each written exam each year. Usually about 6,300 of them are invited for interview. The minimum age should be 16 and a half years, and the maximum age should be 19 and a half years. [20] The number of students admitted to the National Defence Academy's Joint Services Wing during 1953-54 was 572. The total application received in UPSC 6,061. [21] Applicants who join the Air Force through the flying branch also pass through a test called computerized pilot selection system or CPSS for short. About 370 cadets are added to the academy each semester. About 120 cadets were admitted to the Air Force, 42 for the Navy, 208 for the Army. [22] Cadets who are accepted and successfully complete the program are sent to their training academies for one year of training before awarding commission: army cadets go to the Indian Military Academy (IMA) in Dehradun, Air Force Cadets to the Air Force Academy (AFA) in Dundigal, Hyderabad, and naval cadets to the Indian Naval Academy (INA) in Ezhimala, Kerala. [23] Squadron and Battalion Cadet was assigned to one of the 18 squadrons. [17] Number 1 Battalion: Alpha Squadron, Bravo Squadron, Charlie Squadron and Delta Squadron. No. 2 Battalion: Squadron of Echoes, Foxtrot Squadron, Golf Squadron and Fighter Squadron. No. 3 Battalion: India Squadron, Juliet Squadron, Kilo Squadron and Lima Squadron. Battalion No 4: Squadron Mike, November Squadron, Oscar Squadron and Panther Squadron. Number 5 Battalion: Quebec Squadron and Romeo Squadron. Each squadron has about 100 to 120 cadets drawn from seniors, as well as junior training courses at the Academy. As the number of cadets joining the NDA increased year-on-year, india's Ministry of Defence sanctioned raising 16th, 17th and 18th. The newly lifted Panthers squadron won the Oscar for cross-country championship in its first participation in the spring of 2012 [24] [25] The prestigious Interron Squad Championship trophy is awarded to the best squadron. The Champion Squadron has a proud tradition of owning a champion banner for one term, worn during parades and other sporting encounters. Each squadron has its own nickname, individual identity of richly textured history and mascots. The rudimentary importance of the NDA motto Service before it is first taught in the squadron environment, where the cadet learns importance putting the requirements of the Squadron well beyond their own. Curriculum academics NDA offers only a full-time, residential undergraduate program. Cadets are awarded a diploma of Baccalaureate (bachelor of arts or bachelor of science) after 3 years of study. Cadets have a choice of two studies. The scientific flow offers studies in physics, chemistry, mathematics and informatics. The Humanities (Liberal Arts) stream offers studies in history, economics, political science, geography and language. In the compulsory course, cadets study English, foreign language (Arabic, Chinese, French or Russian), physics, chemistry, mathematics, informatics, history, political science, economics and geography. Please note that all cadets must attend basic classes in all these subjects except foreign languages. The cadets then attend advanced courses depending on the selected course. The basic course is mandatory and covers military studies and general studies. Objects such as military history, military geography, weapons systems and weapons, etc. Subjects such as geopolitics, human rights, laws on armed conflict and environmental sciences are covered by general studies. The optional course focuses on subjects specific to the selected cadet service. Cadets spend the first four semesters in a compulsory course and basic course. They take an optional course during the fifth and sixth semesters. They can be transferred to other service academies for optional courses. [26] Training All cadets who join the NDA after 10+2 exams are trained in the Academy for three years, culminating in a degree with a BA(or)BSc or BCs (Computer Science) diploma from Jawaharlal Nehru University; the first course to receive diplomas was 46th [10] [27] In addition to academic training, they are also trained in outdoor skills, such as Drill, PT and games; except for one of the foreign languages to the lower level of B1 (according to international standards). The emphasis in the NDA is on character building, esprit-de-corps, mental and physical robustness, leadership and a sense of keen observation. Life in the NDA is all about learning discipline and striving for self-improvement. Joint Air Force Training Team Air Force Training Team (AFTT)[10] aims to train Air Force cadets in the basics of military aviation through ground training and flight training. Ground training is carried out with the help of modern training aids, aircraft models and a cross-sectional model of aircraft engines and ng consisting of a minimum of eight varieties on the Super Dimon aircraft. Cadets also get exposure to deflection of flames through Skeet shooting. Visits to key Air Force training facilities, air stations and civil aviation centers are also undertaken to keep cadets first - a manual experience of aviation activities. Visits to the Air Force Academy, Air Wing in Weapons technology, an airbase in Pune and Military Engineering were organized to allow Air Force cadets to appreciate aspects of the Air Force. Flight training at the AFTT is fully assisted by an automatic weather station, air traffic control station, paved tarmac and spray for six aircraft. AFTT was formed in late 1956. The aim of the AFTT is to introduce VI Term cadets into gliding and allied professional entities, which in turn prepares them for their professional training in Air Force flight facilities. Over the last 60 years, gliding training has evolved into flight training. Since 1957, the Academy has been a member of the Academy. These are Sedberg T-21B, Baby Eon, Eon Olympia, Rohini and Ardhra instructors. All those sailboats with the exception of the Baby Eon and Eon Olympics were grounded in cadet flight training. The Sedberg T-21B was AFTT's main place in flying a glider, and each cadet was allowed a total of 60 training launches, after which 2-3 mandatory solo screening launches flew with the chief flight instructor (CFI). The cadets cleared for solo flying flew one solo trip on the sailing room and were then formally awarded their 'Wings', exactly half the size of the official wings of the Indian Air Force, worn above the left pocket of the shirt of their formal uniforms. Sandbags were used as ballast instead of absent instructor. A cadet who went solo with the smallest number of launches is usually awarded the Best In Gliding Trophy at the Guest Dining Dinner, one night before the Parade for fainting. An Air Force cadet who was the first in Earth subjects was awarded the Sqn Ldr Vasudev Book Memorial Prize the same night. The induction of Super Dimon in 2001 is a watershed moment in AFTT history introducing a huge leap in training quality. The gliderdrome runway has been extended to 100' and extended to 5000' from earlier dimensions 50'X 3000' maintained by AFTT within the NDA premises. Academy cadets are now learning the basics of flight training at this facility abroad on diamond super dimon HK36 aircraft. [28] Army cadets have a mixture of external and internal training. Outdoor training is conducted on hilly and wooded terrain in and around the NDA campus. Indoor training includes theoretical and practical simulated training. Cadets are taught subjects such as tactical training, weapons training, map reading, military writing, field engineering, organization and administration, and radiophony. Visits to operational military facilities and bases are also included to improve the practical content of the training. During his stay in the NDA, an army cadet is taught to judge distances, study the terrain, indication and recognize targets, camouflage and concealment, dig trenches, observe day and night, stalking, organize the pedestrian part, section formations, field, and fire control orders. They are also taught to handle firearms, shooting and nighttime firing. In addition, cadets are taught aspects of NBC Warfare and CI operations. Inter Squadron Bayonet fighting competition is held in order to incubate the spirit of aggression and martial nuance, as well as learn the nuances of hand-to-hand combat. The Inter Squadron Shooting Competition is also being conducted to improve shooting levels and night shooting skills. Camp Green Horn[12] is conducted to introduce the second term of cadets into basic combat subjects such as map reading, tent adjustment, web equipment equipping, navigation, endurance training, compass reading and leadership quality development. Camp Rover[29][12] is conducted to introduce a fourth-term cadet into basic combat subjects. In the sixth term, camp Torna,[10][12] recalling the first victory of Shivaji, teenagers[30] is being implemented, where practical aspects are strengthened in simulated field conditions. Cadets are given opportunities to demonstrate leadership qualities in different tactical situations. Other aspects covered during the camp include day-night navigation, rapid section-level assault, patrolling, ambush, endurance training and occupation of the Defended Mail section, and conducting a section-level defensive battle at night. The Naval Training Team (NTT)[10] is the oldest of the NDA training teams. The main task of the Naval Training Team is to train V and VI term Naval cadets on specialist service subjects both theoretical and practical. [31] At the end of 3 years of training, naval cadets go to the Indian Naval Academy (INA) as the final academy for 1 year, where they begin their M.Sc diploma together with INA cadets who will work B.Tech. Since 2015, Army and Air Force cadets have also received naval training. [31] The main focus is on navigation, maritime and communication. A total of 328 theoretical classes are being conducted for the VI term of naval cadets. Theoretical instructions are given to the class room at NTT and Peacock Bay using a modern teaching methodology where 3D models, computer-assisted training (CAI) and computer training (CBT), reduced models are used. Practical instructions are given at the Peacock Bay Aquatic Training Centre during regular periods and during club days. TS Ronnie Pereira, in-house model warship helps give training. [32] In order to orient cadets to the Navy, an orientation visit to Mumbai shall be carried out before the start of training for the service; during which cadets are abounding in various classes of ships, submarines, store floors, service facilities, etc. As part of the visit, naval cadets are sent to the NBCD school to familiarate with the fire-fighting, control aspects of the damage. Furthermore, in order to inculcate competitive spirit and adventurousism among cadets, VI term naval cadets are sent to the Naval Academy, Ezhimala to participate in whaling on the high seas and interacting with their colleagues at INA. Camp Varuna during the middle of the term to gain first-hand experience on board during sailing and Camp Varuna II at the end of the term in order to put the theoretical knowledge acquired on NTT into practical use during three days of sailing. The aquatic training centre includes sailing, kayaking, windsurfing, rowing, water skiing, boat modelling. [31] Pass out a parade at the National Defence Academy on 30 November 2019. On 30 November 2019, a parade was held in the passage of the 137th Academy course with 284 graduate cadets. [4] Defence Minister Rajnath Singh was the main guest for the occasion. [4] Alumni Main article: The alumni list of the Academy of National Defense Alumni Academy led and fought in every major conflict India has participated in since the academy was established. They have a famous record of numerous gallant awards and achieve 3 param viral chakras, 31 Maha Vir chakras, 160 viral chakras, 11 ashok chakras, 40 Kirti chakras and 135 shaurya chakras. [33] 11 army chiefs, 10 army chiefs and 4 chiefs of staff of the Indian armed forces were former NDA students. On December 10, for the second time in history, all three Chiefs will be from the same NDA course. [2] In The Standard Bearers media, a documentary directed and written by DipTI Bhalla and Kunal Verma provides an inside look into the history and operations of the NDA. Another documentary, My Flag, My Life, written by Ambarnath Sinha and directed by Nandan Khuhyadi and Sanjay Dabke, brings details of the life of NDA cadets, intended to create awareness of careers in the armed forces among the young generations. [35] [36] Books depicting the NDA include fictional Boots Belts Berets Tanushree Podder, which also adapts into a web series. [37] Outlook reported that more than 1,200 cadets left the
